Postal Commissioners,

RECEIVED
2021 JUN 09
POSTAL REGULATORY COMMISSION

Louis DeJoy's latest ten year plan is a thinly veiled attempt to accomplish two goals: 1). to force privatization of U.S.P.S and; 2) to finish the anti-democratic agenda he pushed under the last president in order to assure mail-in ballots were at risk.

I am 73 years old and he is as transparent as glass. Does he think we don't see through this sham "plan"? Well, he is wrong - we do see through him and his agenda and depend on the rest of you to take appropriate action. If he can't be fired, he needs to be marginalized on your commission.

I depend on U.S.P.S. to deliver monthly medication. I can afford mail pharmacy because my insurance pays more that way. They come from the East Coast to me in California - and he wants to abolish use of airplanes and depend on trucks. What is wrong with that picture? Is he really so isolated from regular Americans' needs?

STOP HIM for all of our sakes.
