POSTAL REGULATORY
COMMISSION

May 23, 2021

Dear Postal Regulatory Commission:

As you can tell - I am sending my comments THROUGH THE US MAIL! I believe in the US-Mail! I am 64 years old and the postal service has been important in my life, especially growing up in Rural Montana!

Please do not allow services to be cut! Please do not close post offices! Please do not stop the use of airlines to deliver mail across the country!

I know of relatives and friends who rely on the postal service for their medications! They do not use UPS - which is a private company - they use the postal service!!! And they depend on the USPS to deliver their medications - life saving medication ON Time!

Mr. DeJoy has allowed horrific changes to the postal service - his first attempts - taking away mail drop boxes and destroying sorting machines - all in an effort to CHANGE THE ELECTION! * → on Trump's direction - DeJoy slowed the efficiency of the mail - now he wants to privatize this vital government agency! It is evident he does not have the experience to supervise this agency!

Who is effected by the proposed cuts? Veterans, elderly, American Indians, and Montanans in rural communities! There are many of the elderly who receive their SSI via the mail - they don't use direct deposit!

Our postal workers are beloved and are an integral part of our community! They are federal employees and deserve the benefits all federal employees have access to!

If you have any questions regarding my concerns - my phone 406-443-4525.

Sincerely,
Beth Cottingham

pg 2

what Mr. DeJoy did accomplish was to undermine peoples faith in the postal service! The election occurred in the middle of a pandemic and voting by mail was the SAFEST option! And Mr. DeJoy wanted US citizens and servicmen to doubt the efficiency of this valuable service - I am still angry about this especially with all the accusations of voter fraud! This was Voter Suppression and should never have been allowed!
