POSTAL REGULATORY COMMISSION

I am a senior citizen. I rely on our postal system for many things. I am greatly concerned about the continuing destruction & possible privatization of our postal system. You need to fire Mr Repy who is destroying our postal system & has a conflict of interest with his private companies. My postal service is worse & he has proposed many cuts in service. He is destroying a system set up by our constitution. Please help stop this destruction before its too late!!!
