POSTAL REGULATORY COMMISSION
OFFICE OF SECRETARY

Dear USPS Commission Members:

It has come to my attention that the Postmaster General is proposing a number of radical cut backs in the level of service and organization of the Postal Service in his ten year plan. I am writting to you to offer my sincere objection to those reduction in services. I am a disabled Senior living in a Senior Care Assisted Living facility in Sacramento County California. I need the Postal Service for delivery of my sixteen daily medications and, as you can tell, correspondence and financial transactions which are all facilitated via the USPS. I live in a urban setting and rely on the Post Office. If I lived in a rural location in this county, the USPS is the only entity which would provide me with correspondence, medications and parcels needed as part of my activities needed for daily living. Please reject DeJoy's Ten Year Plan. Do not throw all seniors out with DeJoy's bath water.

Sincerely, Joseph O. Carlton
