POSTAL REGULATORY COMMISSION

Dear Postal Commission

The United States Postal Service, serves all Citizens wherever they live equally.

The Postal Service knows where the mail is and where it is going and if any problems occur, the USPS Postal Inspection Service resolves them.

If any letter sorting machines were not needed, Postmaster Louis DeJoy should have tons of data to support his decision making in his actions, yet he offers non.

Multi millionaire Republican Trump donor with no postal experience Louis DeJoy claims no knowledge of who authorized the removal and destruction of letter sorting machines.

He offers no reason other than himself saying they are not needed.

I don't think he is truthful. I am sure that he does not think about service to America at all. He is first and foremost a Capitalist with business interests in conflict with the United States Postal Service's universal service to all Americans.

I believe that Louis DeJoy was given the Postmaster General job by Donald Trump for the sole and specific reason to destroy the Post Office and Vote by mail.

Please do not allow Louis DeJoy and Republican Capitalistic people to destroy our Great Postal Service for their own personal greed.

Sincerely

Richard D Freeman
