Dear Sirs,

We are writing to request your attention to the changes to U.S. Postal Delivery and service.

2021 JUN 10 P 12:11
POSTAL REGULATORY

We really appreciate the Postal Service Employees and their service to America.

The threatning actions of the Director to slow mail delivery more, are not acceptable. Our medicines are delivered by mail and we count on the service. Our bills are paid by mail and when we mail a bill on time, we trust that our credit rating will not be damaged by slow delivery.

The postal drop boxes are very important to keep in our neighborhoods for people with limited mobility.

I know they have raised the rate for first class stamps again; let them show us that they deserve the extra money, - not by cutting service.

Thank you.

Sincerely,
Robert and Barbara Blanchette
