May 31, 2021

Dear Postal Regulatory Commission,

Please don't slow down our mail, I depend on Medicare receiving my payment on time. I always mail my payment on the day of receipt, if possible. Please I don't want to lose my medicare because my payment is slowed down and possibly late.

I want exceptional postal service not adequate service.

We americans depend on the postal service so much — I beg of you please don't implement the changes. We do not need our mail slowed down and the service destroyed.

Thank you for your consideration.

Christine Mitchell
