Postal Regulatory Comm.

Louis DeJoy has made a mockery of the postal system. As a private citizen I have experienced delays and poor service. Mail ordered medicines have taken over 30 days to reach me. No one should have to incur poor health and increased cost.

DeJoy wishes to drive the postal system in to private hands. This must be stopped. He is seeking to destroy a once respected part of our American system.

Fire DeJoy!

Restore our valuable postal service and restore confidence - its not too late.

Send him packing!
