POSTAL REGULATORY COMMISSION
OFFICE OF THE SECRETARY

I attended your meeting about closeing the Velpen Post OFFice Our small community is a close one and our Post office is a place where people can see their neighbors here of things that are happening who is ill and get all our Postal needs taken care of. At the meeting you meaning the Postal Service had no answers for any of the questions that was put to you all. And I Can still see you are going ahead with the improvements on the building and the sidewalk and Parking lot Seems like if the Postal Service is having to lay people off close Post Office's that doing all the useless upgrades doesnt make good dececision on the Postal Services at all. Give the SMALL Communities a chance

Look at some of your Dumb ideas that you say was already in the works before the closing was AN issue (No wonder your broke)
