Office of PAGR

I would like to appeal the closing of the West Elkton, Ohio Post Office. Located at 117 N. Main Street, West Elkton, Ohio 45070.

I use that post office to buy stamps, mail packages and other services. I have a rural mail box that has been smashed by vandals. Also my mail delivery is never the same time every day. In the winter time sometimes I can go days before I receive any mail. I don't like putting money out for stamps for fear it will be stolen.

I don't understand how closing up these smaller offices and piling the mail on other over worked personel can make things better and cheaper. It always comes down to money not better service.

I don't have a computer so I pay my bills through the post office. I've had several bills with checks in them never make it to their destinations so therefore I've had to pay late fees. I don't see how the postal service will improve by closing down these post offices. Also what happens to all the employees. There no way you have jobs for every one of these loyal workers that have worked for years for the postal service. It will mean more people on unemployment.
