POSTAL REGULATORY COMMISSION
OFFICE OF THE SECRETARY

I am writing to you to appeal you trying to close down our post office. We live in a small town in the country, and to go to a store or anyplace you have a half hour drive to get there. It is very nice and convenient to have our post office in our little town. It would be a big asset to everyone in our town to keep our post office open. The whole town is behind keeping our post office open. Our postal worker always has our mail in our boxes on time, and she is always helpful when we need to send a package or letter. It is nice to not have to stand in long lines to get stamps or to send something special out. It is not fair to close our post office and to put our postal worker out of a job. Our town really needs to keep our post office open. It is not fair to make our town have to go a half hour away just to go to the post office, instead of being able to walk to our post office. Some of our elderly people who live in our town probably couldn't do their mailing services if our post office is to close. It would seem more appriate to leave our post office open then to have to pay for the gas to have a mail carrier to come from miles and miles away to deliver the mail to our town. We already have

enough people unemployed without the government closing down our post office. So I and our town would like to appeal you closing our post office. So I hope that you think really long and hard before you just up and close our post office that has been in our town for years and years. I just wanted to let you know I feel very strongly about this appeal, and it wouldn't be in your best interest to close our post office. Our post office is in West Elkton, Ohio 45070

Thank you

Richard & Julia Steele
