POSTAL REGULATORY
COMMISSION
OFFICE OF THE SECRETARY

Dear Postal Regulatory Commission.

I WANT to Start by telling you that I did Attend our community Meeting BACK IN MARCH, 2011, I WAS Shocked By the lACK of Information that the four Postal Representatives hAd for our community. I WANT to tell you if that is the Kind of MANAGEMENT that is in the Postal Service it is No wonder it is going under. you Need to have People IN Place that can ANSwer the tough questions INStead of just sit there AND look at one another when a question is ASked. this WAS A disgrace Not only to our Community but to the Postal Service AS well. This closure is going to be a real hArdShip on the elderly IN OUR Community, But it Seems that the Postal Service doesn't Care About the Small rural Communities Such AS US. MAybe when you go totally Bolly up - You will then Look BACK on the Situation + you can ask yourSelves - where did the Postal Service go wrong? I for one can tell you what you did wrong - You Are tAKing AWAY All the Small rural Post OFFices + us rural people have lost our Confidence in your Service to us.

Thank You
Shanique Satterfield
