POSTAL REGULATORY COMMISSION
OFFICE OF THE SECRETARY

On Thursday, Sept. 8, 2011, I was shocked to find that our post office had had the unit of postal boxes removed and on Friday there were people removing boxes of supplies etc. from the post office.

While I am well aware that the Gepp post office is on the list for closure, we have submitted an appeal. I also was of the understanding that our appeal had been received in time and we were in the legal process of having it heard.

Now we're being told that our OIC has to have 5 days off - according to "contract" so it was closed under "emergency" rule. Certainly postal officials knew about this far enough ahead to get a 5 day replacement person. As far as that goes, we have been without a postmaster for years and to my knowledge there was no effort to recruit a new one

Office of PAGR

Certainly the Postal Service, at the least, had an obligation to follow procedure and allow for the appeal process to proceed.

I request from you a waiver of electronic filing as I do not have a computer. I do have a fax and that number is 870-458-2288.

Sincerely,

Mary Rivera
