POSTAL REGULATORY COMMISSION
OFFICE OF THE SECRETARY

Gentlemen,

I am writing this to appeal the decision to close the Pierceville Post Office 47039

I understand that the law says that you cannot close a post office due to cost. We all know that the bottom line is the real reason for these closures. I'm sorry but less than 1% of the over-all budget? Give me a break! And what's to happen to all of the employees? I cannot imagine how you will be able to find jobs at the Post Office to keep these people employed. The economy is in terrible shape now, how will the decision to close 36-3700 post offices effect this?

I live about a mile + a half from the Pierceville Post Office + I have utilized this office for thirty years! I buy my stamps there + mail packages there. I also purchase money orders there. I refuse to put money inside my rural box to wait my carrier for a money order that I won't receive until sometime the next day.

And as far as the Internet is concerned... we have no Internet in our area [or cell service for that matter.]

Not everyone lives in the city, these rural Post Offices are a life-line for people in the country. USPS United States Postal Service...

OVER →

Please don't deny us this vital Service.

Sincerely,

Mrs. Debbie Poore
