Post Office of Daisy
Daisy, Georgia 30423

RECEIVED
2011 DEC 27 P 3:20
POSTAL REGULATORY COMMISSION
OFFICE OF THE SECRETARY

There are many reasons that the Daisy post Office should not be Closed.

1- It would be an inconvienence to myself, and many other Senior Citizens in Daisy and the surrounding area.

2- It would be more costly for me to get another another P.O. Box, from another post Office, for the cost for traveling to the new post office. I can not use the Claxton post Office. I tryed that when I first moved to Daisy in 1999 before I knew they was a post Office in Daisy. So instead of 7 miles to Claxton, It would be approx. 12 miles to the Hagan post Office.

3- I am a senior Citizen living on Social Security, and all cost keep rising faster than the cost of living Index.

4- The mail Box and Route Carrier would not work for security reasons, for I am not at home all the time.

5- The paint and Body shop, The City of Daisy water Dept. and two(2) churches depend on the Daisy post Office, as many people in Daisy also, also three(3) or four (4) businesses in Claxton that get their stamps from the Daisy post Office for the friendly, helpful,

and courtous service they recive from the postal worker at the Daisy post Office.

6. It would be a total disaster for the City of Daisy, the City would disappear, as it has been for other rural Cities that the post Office has been closed.

7. I know the post Office like any other business needs to be profitable, since the announcement that the Daisy post Office was being considered for closing, business has declined, but eventently it not only the Daisy post Office, for the reports that I have heard the postal Service for the entire U.S.A has not made any money since 1951.

8. please take in account what effect it would put upon you, If your post Office closed. Thank for your time. I hope the postal Service will reconsider and keep the Daisy post Office open.

Sincerly;
Carroll S. Spencer
