To Postal Regulatory Comm.

Dear Sir:

Your commission was referred to me as the one I could contact. I understand you have the ability to help us retain our postoffice here at Barnes City, Iowa. I certainly hope and pray this is true. I don't know how I could get along without it.

I am 87 years old, suffering from arthritis and am pretty much housebound - my postal connection is my lifeline. I would be eternally grateful for your help in us maintaining our relatively new post office. Not only is it important to the older citizens, but our young people need it as a safe place to wait for the school bus.

Please use your influence to help us. Thank you -

Sincerely,

Virginia Likens
