

BEFORE THE
POSTAL RATE COMMISSION
WASHINGTON, D.C. 20268-0001

POSTAL RATE AND FEE CHANGES

Docket No. R2006-1

REVISED RESPONSE OF THE UNITED STATES POSTAL SERVICE TO
PRESIDING OFFICER'S INFORMATION REQUEST NO. 19 [ERRATA]
(October 17, 2006)

The United States Postal Service hereby provides its revised response to Presiding Officer's Information Request (POIR) No. 19, issued October 2, 2006. This response, which replaces the original response, refers to a revised version of library reference L-189, which includes the same data for medium and large publications as provided yesterday, as well as data for 30 "small" publications from the Docket No. C2004-1 database. Because of the form of the question and the nature of the response, an institutional response is being provided.

The question is stated verbatim and is followed by the response.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorneys:

Daniel J. Foucheaux, Jr.
Chief Counsel, Ratemaking

David H. Rubin

RESPONSE OF THE UNITED STATES POSTAL SERVICE
TO PRESIDING OFFICER'S INFORMATION REQUEST NO. 19

1. The Commission requests that the Postal Service provide, under the protective conditions established in Presiding Officer's Ruling No. R2006-1/51, a version of MPA-ANM-LR-3 composed of data from as many of the same 251 publications as are currently mailing. This new data should reflect mailings sent after the 24-piece sack minimum became effective.¹ [Note 1: If more recent data for any of the 251 publications is not available, the Postal Service may substitute data for a similar publication.]

The Commission further requests that the Postal Service provide a table comparing the percentage changes from current postage to its Outside County rate proposals based on these new, more recent mailings.

RESPONSE:

The Postal Service is filing the requested data for 158 PostalOne eVS publications, along with 30 "small" publications, in library reference L-189, as revised October 17, 2006, filed under protective conditions. Those publications for which data were also provided in Docket No. C2004-1 are identified with their Docket No. C2004-1 IDs in the column labeled "C2004-1 ID." When updated data for Docket No. C2004-1 publications were not available, data for a replacement publication are provided, as indicated by the code "RPL" in the "C2004-1 ID" column. The publications are sorted by strata, whether they are for an original Docket No. C2004-1 publication, or a replacement, and then the issue size. Publications that are comailed are so indicated in the "Comail" column; for such publications, the data show the characteristics of the entire co-mailing, rather than the particular publication.

Publications 162-167 in the PostalOne eVS worksheet have a per-issue circulation of under 15,000 pieces, but these are publications from the medium stratum in Docket No. C2004-1 whose mailed circulations have decreased since Docket No. C2004-1. Letter rates are included in the QualificationRpt worksheet
