

BEFORE THE
POSTAL RATE COMMISSION
WASHINGTON, D. C. 20268-0001

COMPLAINT OF TIME WARNER INC. ET AL.
CONCERNING PERIODICALS RATES

Docket No. C2004-1

FOLLOW-UP INTERROGATORIES OF TIME WARNER INC. ET AL.
TO AMERICAN BUSINESS MEDIA (TW ET AL./ABM-69-70)
(October 4, 2004)

Pursuant to sections 25, 26 and 27 of the rules of practice, Time Warner Inc., Condé Nast Publications, a Division of Advance Magazine Publishers Inc., Newsweek, Inc., The Reader's Digest Association, Inc., and TV Guide Magazine Group, Inc. (collectively, Time Warner Inc. et al.) hereby direct the following interrogatories and requests for production of documents to American Business Media (ABM).

Time Warner Inc. et al. request that, in responding to these requests, ABM follow the guidelines set out in Time Warner Inc. et al.'s First Set of Interrogatories to ABM, filed July 27, 2004, which are incorporated by reference herein.

Respectfully submitted,

s/ _____
John M. Burzio
Timothy L. Keegan

COUNSEL FOR
TIME WARNER INC.

Burzio & McLaughlin
Canal Square, Suite 540
1054 31st Street, N. W.
Washington, D. C. 20007-4403
Telephone: (202) 965-4555

FOLLOW-UP INTERROGATORIES TO ABM

TW et al./ABM-69 The attached table, ABM116_144, is taken from an Excel spreadsheet named 1f1sg01!.xls that was provided by ABM counsel and appears to present somewhat more detailed results from the analysis performed, based on mail.dat files, of ABM publications and summarized in lines 116 through 144 of witness Bradfield's Exhibit LB-1. Lines 132-134 have been removed because, as pointed out in Bradfield's response to TW et al./ABM-T2-8, they were repetitions of line 131.

- a. Please confirm that the results in the attached table correspond to those on the fourth worksheet in the Excel file provided by ABM counsel to the complainants.
- b. Please confirm that the publication numbers in the first column correspond to the line numbers in Exhibit LB-1.
- c. Please confirm that the last column in the table gives the percent change in postage that was estimated for each publication if the rates proposed in this docket were to take effect.
- d. Please confirm that the five highest percent increases under the proposed rates are, respectively, 81%, 65%, 38%, 28% and 16%, for publication numbers 121, 128, 119, 144 and 136.
- e. Please confirm that the column labeled "sack minimum" represents the values of the parameter for minimum number of pieces per sack used in developing the presort scheme for each publication. If not confirmed, what do the numbers in this column mean?
- f. Please confirm that the value of the "sack minimum" parameter is equal to 6 for publication numbers 121, 128, 119, 144 and 136, the five publications that would experience the highest increases under the proposed rates, while it is equal to 24 for all the other publications in the table, except publication 131 for which the parameter is not specified. Please confirm also that for publications 121, 128, 119, 144 and 136 the average number of pieces per sack is shown in the table as either 13 or 14, while it ranges from 38 to 66 for all the other publications.
- g. Please provide the frequency (number of issues per year) for the 26 publications.

TW et al./ABM-70 The attached table, ABM1_75, is taken from an Excel spreadsheet named 1f1sg01!.xls that was provided by ABM counsel and appears to present somewhat more detailed results from the analysis performed, based on mail.dat files, of ABM publications and summarized in lines 1 through 75 of witness Bradfield's Exhibit LB-1.

- a. Please confirm that the results in the attached table correspond to those on the first worksheet in the Excel file provided by ABM counsel to the complainants.
- b. Please confirm that the publication numbers in the first column correspond to the line numbers in Exhibit LB-1.
- c. Please confirm that the sixth column in the table gives the percent change (increase or decrease) in postage that was estimated for each publication if the rates proposed in this docket were to take effect.
- d. Please confirm that the last column, labeled "sack minimum," represents the values of the parameter for minimum number of pieces per sack used in developing the presort scheme for each publication. If not confirmed, what do the numbers in this column mean?
- e. Please confirm that seven of the 75 publications, numbered as 58 and 70 through 75, would have postage increases over 20%, but that of the 68 others none would have increases higher than 13%.
- f. Please confirm that publication 58 uses a sack minimum of 6, publications 70 through 75 use a minimum of 12 and that the 68 other publications (except number 48 for which the minimum is not specified) use sack minimums of 24 pieces. Please explain if not confirmed.
- g. Please confirm that publications 58, 70, 71 and 72 are published monthly and that publications 73, 74 and 75 are published twice a month.
- h. Please confirm that publications 57 (circulation 17,000), 61 (circulation 10,800) and 65 (circulation 7000) all would experience lower postage under the proposed rates, while the 11 publications with circulation over 100,000 all would have higher postage.
