MAINTENANCE MANAGEMENT ORDER

MAINTENANCE MANAGEMENT ORDER

This Maintenance Management Order (MMO) provides clarification of the class codes listed on the Preventive Maintenance MMOs used for DBCS Phase I through V (1-5) equipment. ALL DBCS Phase 1-5 equipment has been modified to support the Postal Automated Redirection System (PARS), resulting in a change to the equipment class codes.

The class code in MMO-004-08 for DBCS Phase I equipment is listed as AB and the correct class code for the DBCS Phase I PARS modified equipment is now **AC**.

The class code in MMO-070-07 for DBCS Phase II through V equipment is listed as CB and the correct class code for the DBCS Phase II through V PARS modified equipment is now **CJ**.

Continue to use the current PM Routes and make a pen and ink change to the site MMOs. Change the class code on MMO-004-08 to **AC**, and the class code on MMO-070-07 to **CJ**.

MTSC will be re-issuing the PM Bulletins with the corrected class codes in the near future.
