

BEFORE THE
POSTAL REGULATORY COMMISSION
WASHINGTON, DC 20268-0001

Annual Compliance Report, 2014

Docket No. ACR2014

DOUGLAS F. CARLSON
COMMENTS ON ANNUAL COMPLIANCE REPORT

January 16, 2015

On December 31, 2014, the Commission solicited public comments on the Postal Service's Annual Compliance Report.¹

In Chairman's Information Request No. 1, question 16, the Commission asked the Postal Service to provide "a copy of the Collection Point Management System (CPMS) database as of the end of FY 2014."² The Commission has requested this information for several years, and each year the Postal Service has filed a subset of data from the CPMS relating to each collection box.

In the past two to three years, the Postal Service has added two important indicator flags to the CPMS: whether a collection box belongs to a city delivery office, and whether the Postal Service has approved an exception to the national service standards for collections prescribed in Chapter 3 of the *Postal Operations Manual*. I suggest that the Commission ask the Postal Service to include these fields in its response to question 16 for FY 2014. Technically, most service standards in POM chapter 3 apply only to city-delivery post offices, so including the city-delivery indicator will allow for systematic evaluation of collection times for compliance with the national service standards. The POM exception indicator

² Chairman's Information Request No. 1 at 9, question 16, filed January 9, 2015.

will allow the Commission and interested persons to evaluate the extent to which the Postal Service has approved exceptions to the national service standards. In addition, the presence of a POM exception would explain away cases of apparent noncompliance with the service standards. The burden for the Postal Service to modify its existing database query and add these two fields should be minimal.

Another issue exists relating to collections. Since 2007, and in some years prior to 2002, the Postal Service has collected mail from some collection boxes prior to the posted final collection time on Christmas Eve and New Year's Eve. In Docket No. C2001-1, the Commission heard a complaint that I filed concerning this issue. Before the proceeding concluded, the Postal Service announced that it would stop collecting mail early on Christmas Eve and New Year's Eve. However, the agency resumed the practice in 2007. I suggest that the Commission request a list of collection boxes that the Postal Service collected early on Christmas Eve and New Year's Eve in 2013 and 2014 so the Commission and interested persons can compare the level of notice that the Postal Service provided to the public in each area of the country to actual operational activity. For example, in 2013, the Postal Service collected mail early on Christmas Eve and New Year's Eve in Peoria, Illinois, but the press release that the agency issued did not mention changes in collection times. See Exhibit 1. Similarly, the Postal Service issued a press release for California customers on December 22, 2014, announcing that "Regular mail delivery, pickups from the blue collection boxes and PO Box service will not be affected by" shortened retail hours on Christmas Eve and New Year's Eve in 2014.³ In fact, in San Francisco, San Jose, and other California cities, the Postal Service collected mail early on Christmas Eve and New Year's Eve. The Postal Service fails to provide adequate service to the public when it collects mail prior to the time posted on

collection boxes without having provided sufficient notice to the public of the service change.

Respectfully submitted,

Dated: January 16, 2015

RE: FOIA Case No. 2015-FPFD-00129

Dear Mr. Carlson:

This is in response to your Freedom of Information Act (FOIA) request of November 22, 2014, in which you seek access to a Collection Point Management System Scanner History Detail reports which would indicate the time(s) of day on December 24 and 31, 2013, when a USPS employee did or did not collect mail from the collection boxes and lobby drops under the jurisdiction of the post office in Aurora and Peoria, IL.

Based on your description of records sought, a search was conducted of the files maintained by the St. Louis IBSC Solutions Center, and seven (7) pages of responsive records were located. Enclosed you will find said documents, released to you in full.

Thank you for your interest in the United States Postal Service.

Sincerely,

A handwritten signature in cursive script that reads "Brittany Lindsay".
