Docket No. ACR2016

NOTICE OF THE UNITED STATES POSTAL SERVICE OF FILING  
OF FURTHER REVISED VERSION OF USPS-FY16-4 -- ERRATA  
(July 10, 2017)

The Postal Service hereby gives notice of filing of a revised version of the material indicated below in the public annex in this proceeding:

USPS-FY16-4      FY 2016 Market Dominant Billing Determinants

A description of the revisions of this date (in addition to the earlier revisions submitted on March 15, 2017) can be found at the end of the revised Preface included with the folder. This filing does not replace the original folder entirely. Instead, only one partial set of files (the Standard Mail files for Quarters 3 and 4, plus the Standard Mail annual file for FY 2016) is replaced, and the other unrevised sets are not resubmitted. Thus, only provided are the partial set of Standard Mail files that are revised, plus the revised Preface.

The current revisions to USPS-FY16-4 do not correct errors in the original filing, but instead apply the same rounding procedures (at the same level of aggregation) within the procedures for converting Move Update revenue to pieces as were applied when preparing material for the Move Update filing in Docket No. R2017-7, submitted on June 30, 2017. The shift in rounding procedures causes no material changes in the

piece estimates, but rather trivial changes. Nevertheless, to be entirely consistent with the Move Update materials, as requested, conforming changes (relative to the FY 2016 ACR files) have been made in the original Standard Mail billing determinant files for Quarters 3 and 4, and consequently in the annual FY2016 file as well.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorney:
