POSTAL REGULATORY
COMMISSION
OFFICE OF THE SECRETARY

comments: When the move was granted to go to inflation based pricing all was well and good. Prices do go up. Fuel. Labour. Equipment. Then last year happened. In a power grab driven by endless lust for riches the price for a Forever Stamp went up to "Rounding Error 5 cents", a ridiculous scheme that rates up there with the Chewbacca Defense. This cannot stand. Stop drinking the Trump "Smash and Grab" Kool aide and return America to Greatness by going with inflation based pricing. 53 cents.
