address2: ADDRESS 2  
city: CITY  
state: STATE  
zipcode\*: 44074

comments:

I am writing to vehemently oppose the 10% rate hike for individuals and small businesses. The notion that people can not compute stamp costs for values not divisible by 5 is ludicrous and goes against the long history of United States Postal Service pricing.

I encourage the USPS to raise presort rates for large mailers by 10% (or more) and raise stamp costs for individuals and small businesses by 2%.

Please stop giving large organizations benefits over individuals. Listen to the comments of the people - not the corporations.
