Docket No. ACR2020

**NOTICE OF THE UNITED STATES POSTAL SERVICE  
OF MINOR REVISIONS TO USPS-FY20-4 -- ERRATA**  
(May 20, 2021)

The United States Postal Service hereby provides notice of minor revisions to USPS-FY20-4, FY 2020 Market Dominant Billing Determinants. The Special Services billing determinant file within this folder is being revised to reflect some minor needs for corrections recently noticed in the COD tab, the Change of Address Credit Card Authentication tab, and an Address Management Services tab. While all of the revisions are quite minor, it will nonetheless be beneficial to have these improved FY 2020 billing determinant data available for application in future proceedings. The changes are further described in the revised Preface also included within the revised folder submitted today.

Today's revised version of USPS-FY20-4 includes only the updated Special Services Excel file. All of the other data files in the USPS-FY20-4 folder were unaffected by these changes, and those unaffected files have not been reproduced in the revised folder. The source for those unaffected files continues to be the original folder filed on December 29, 2020. The replacement file provided for Special Services, however, does serve as a complete replacement

for that original file, because while only three tabs reflects any revisions, the rest of the tabs (unrevised) are also still included in this file.

.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorney:
