

Comments on N2021-1

May 30, 2021

To the Postal Regulatory Commission:

I'm not part of the Postal sector, I am just an American citizen who believes in the Postal Service as it was prior to the year 2020. I'm writing in OPPOSITION to N2021-1 which has the proposed changes to the Postal System that would further degrade service and standards.

I ask the PRC to study what would make the USPS viable once again reliable and efficient, by examining various and hybrid ways to pay for it. Americans want their Post Office to survive and no one is asking us how much we would be willing to pay for a first class stamp for something we can be sure will arrive in a timely manner. If it is determined that 75-cents or more is what it would take, and that is deemed too onerous, then Congress can take up the question of providing additional funding or eliminating some of the ridiculously long future pension funding requirements I strongly oppose N2021-1.

Americans citizens deserve superior delivery standards. The role of the USPS isn't to make a profit but to ensure all US citizens have the same access to mail service regardless where they live and who they are. I strongly oppose changing the First-Class Mail delivery, making additional service cuts, higher postage prices, stopping air mail for 1st class mail and closing post offices.

If you approve this plan you should be honest enough to acknowledge that you are knowingly killing what is arguably our oldest Constitutional "original" public government agency.

Yours Truly,
