POSTAL REGULATORY  
COMMISSION

Mr. Michael M. Kubayanda  
Chairman, Postal Regulatory Commission  
901 New York Avenue NW, Suite 200  
Washington DC 20268-0001

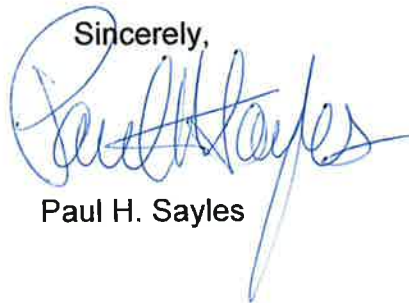

Dear Chairman Kubayanda:

This letter is to express my disagreement with the proposed postal service rate increases that has been submitted to you by the Postmaster General. I consider that "improving" viability by closing post offices and increasing delivery time, while increasing postal rates does not seem to be a reasonable policy to pursue.

I would have expected to see increased services to the consumers rather than the opposite which is being proposed. Improving services would, I presume, lead to an improvement in finances.

Hopefully, you will return the recommendation to the Postmaster General and require a more reasonable and beneficial plan for both the Postal Service and consumers.

Sincerely,

Paul H. Sayles
