Each mailer who enters mail at Standard Mail (A) rates paid with a meter or precanceled stamps must pay an annual mailing fee at each post office of mailing; a mailer paying this fee may enter clients' mail as well as the mailer's own. The mailer whose permit imprint appears on pieces in a mailing paid with a permit imprint must show that permit number on the postage statement and must pay the annual mailing fee for that permit; this fee is in addition to the fee for an application to use permit imprints.

**"Return to Sender" Priority Mail**

Some BMCs are receiving significant volumes of "return to sender" Priority Mail in the Standard Mail (B) mailstream.

Historically, "return to sender" First-Class Mail and Express Mail have been handled and processed in their own respective mailstream. Priority Mail "return to sender" (undeliverable as addressed, refused, unclaimed, etc.) must be returned in the Priority Mail mailstream.

#### REMINDER

### Plant Verified Drop Shipment (PVDS) Procedures

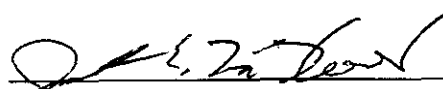

As a result of a recently conducted audit by the Office of Inspector General, it is important that the following instructions are reinforced with all employees involved in the acceptance of Plant Verified Drop Shipments (PVDS) at all destination BMCs, plants, and delivery units:

1. When a driver arrives with a drop shipment, the acceptance employee must request PS Form 8125, *Plant Verified Drop Shipment (PVDS) Verification and Clearance*, Form 8125-C, *Plant-Verified Drop Shipment (PVDS) Consolidated Verification and Clearance*, Form 8125-C, *Plant-Verified Drop Shipment (PVDS) Consolidated Verification and Clearance/DSMS*, or a Form 8125 facsimile. If the document cannot be located, the driver is responsible for resolving this issue and producing the required PS 8125.
2. Before accepting the mail for processing, the acceptance employee must match the shipment with the information on Form 8125. First determine if the driver is dropping the shipment at the correct facility. The destination facility must be consistent with the discount claimed (DBMC, DSCF, or DDU). For example, if the DBMC discount is claimed, the driver can drop this mail only at the destination BMC, and all mail claimed at this rate must destinate within that BMC service area.
3. The acceptance employee must conduct an inspection to determine if the volume of mail is consistent with what is listed on Form 8125. Each form must list the total number of pieces, the total weight, and the number of containers (pallets, sacks, etc.). For palletized mailings, ensure that the number of pallets matches the number listed on the form. For bedloaded shipments of sacks, parcels, or bundles, estimate the total number in the shipment or determine the total weight of the shipment, and then match with the corresponding number listed on the form.
4. If everything appears to be consistent, the acceptance employee must accept the shipment and sign Form 8125. The signed copy at the destination facility must be maintained for a minimum of one year. An additional copy may be returned to the driver.
5. If the number of pallets, number of pieces, or weight is not consistent with Form 8125, then the acceptance employee must resolve the discrepancy by telephoning the origin office before the shipment can be accepted. The name and telephone number of the origin office that verified the shipment must be listed on Form 8125. If the discrepancy cannot be resolved, the acceptance employee must refuse the shipment.
