POSTAL RATE AND FEE CHANGES, 2000

Docket No. R2000-1

NOTICE OF THE UNITED STATES POSTAL SERVICE CONCERNING ERRATA  
TO CAMPBELL WORKPAPER II (ERRATUM)

In footnote 2 in his March 13, 2000, response to KeySpan interrogatory T29-23(c-d), Postal Service witness Campbell observes that his use of certain postal terms of art (sortation, distribution and counting) in the context of discussing both the processing and the accounting of Qualified Business Reply Mail has the potential to confuse readers of Campbell Workpaper II, as well as USPS-T-29 and USPS Library Reference I-160. Witness Campbell has reviewed his use of these terms in these documents and has determined that potential confusion could be eliminated if – without changing their substance – he replaced some terminology in order to make sure each document used the terms consistently. Accordingly, the Postal Service submits the following errata to Campbell Workpaper II: At page 1, under **Calculation of Manual BRM Postage Due Productivities**, change “Work Element . . . 1. Counting and Distribution” to “Work Element . . . 1. Distribution”.

A substitute page II-1 for Campbell Workpaper is attached. Errata to USPS-T-29 and USPS-LR-I-160 are being filed separately.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorneys:
