**MPA/USPS-T41-1.** Table 2 of USPS-LR-J-114 disaggregates Periodicals Outside-County mail volume, weight, and number of containers by entry facility type, container type, and container size. Using the data used to produce Table 2, please provide an estimate of the number of Periodicals Outside-County sacks there are by sack size (i.e., number of pieces in sack), sack presort level, and entry facility. If the study did not collect enough detail to provide such an estimate, please provide an estimate of the number of sacks by sack size and sack presort level using the most recent data available. Please also describe the data source you used to develop the estimate.

**CERTIFICATE OF SERVICE**

I hereby certify that I have this date served the foregoing document upon all participants of record in this proceeding in accordance with Rule 12 of the rules of practice.
