<sup>1</sup> The special service forecasts discussed in section VIII below are for total special services, including international special services. The total special service forecasts are divided into domestic and international special services in Library Reference USPS-LR-J-125.

<sup>2</sup> Source: USPS-LR-J-135, Worksheet FA-1, Adjusted TYAR

<sup>3</sup> Source:  $220.887 = 221.655 + (-.768)$  [USPS-LR-J-135, Worksheet FA-1, Final Incremental Volumes]

<sup>4</sup> Source: Delivery Confirmation numbers above include both Delivery Confirmation and Signature Confirmation. Separate unadjusted forecasts for Delivery (BR 236.862, AR 202.041) and Signature (BR 0.720, AR 0.610) are presented in LR-J-125. The adjusted After-Rates total value can be decomposed into 307.166 million pieces of Delivery and 1.555 million pieces of Signature. It represents the LR-J-125 forecasts plus market research derived adjustments, and is computed as  $308.722 = 202.650 + 4.898$  [USPS-LR-J-135, Worksheet FA-1] +  $(118.007 - 17.780)$ [USPS-LR-J-120] +  $(1.555$  [USPS-LR-J-135, Worksheet FA-2, column D, Signature] -  $.610$  [USPS-LR-125]). There are no Before Rates adjustments to Delivery Confirmation, so the implicit adjusted BR total (not shown above) would be 238.386, representing the LR-J-125 BR figure for Delivery (236.862) plus the adjusted BR Signature figure of 1.524 [USPS-LR-J-135, Worksheet FA-2, column B, Signature]. Note slight rounding differences in the displayed values.
