POSTAL RATE COMMISSION  
OFFICE OF THE SECRETARY

POSTAL RATE AND FEE CHANGES, 2001

Docket No. R2001-1

**NOTICE OF UNITED STATES POSTAL SERVICE OF FILING REVISION TO  
THE TESTIMONY OF WITNESS MOELLER (USPS-T-32) [ERRATUM]**

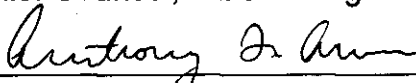

The United States Postal Service hereby provides notice that it is today filing a revision to the testimony of witness Moeller (USPS-T-32). This filing consists of narrative text to be appended at the end of witness Moeller's direct testimony (USPS-T-28). The substance of the revision filed today acknowledges the filing on November 15, 2001 of changes to cost data provided by witness Miller (USPS-T-22) that are used in witness Moeller's rate design. Copies of the revision are attached to this notice.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorneys:

Daniel J. Foucheaux, Jr.  
Chief Counsel, Ratemaking

December 19, 2001

**VII. SUBSEQUENT COST REVISIONS**

The testimony in the preceding sections reflects the data available at the time this proposal was filed. Some of these data changed pursuant to the filing of errata by witness Miller on November 15, 2001. The following table depicts the passthroughs as proposed and described earlier in this testimony, as well as the implied passthroughs that result from comparing the revised costs to the proposed rates.<sup>36</sup> No rates are being revised, and the implied passthroughs are consistent with the objectives of the rate design as described throughout the testimony. The implicit passthroughs are, in most instances, within a few percentage points of those filed. Using the implicit passthroughs, and thereby maintaining the rates as proposed, is consistent with the criteria of the Act.

**Regular Subclass passthroughs:**

	<u>As filed</u>	<u>Implicit</u>
Letter/Nonletter		
Basic tier	73%	70%
3/5-digit tier	85%	86%
Automation		
Mixed AADC letter	82%	87%
3-digit letter	77%	76%
Presort Letters		
Basic – 3/5-digit	158%	288%

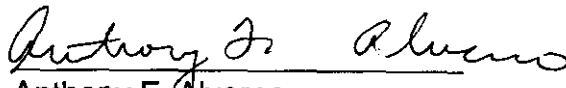

**Nonprofit Subclass passthroughs:**

	<u>As filed</u>	<u>Implicit</u>
Letter/Nonletter		
Basic tier	62%	60%
3/5-digit tier	63%	64%
Automation		
Mixed AADC letter	35%	37%
Presort Letters		
Basic – 3/5-digit	100%	170%

<sup>36</sup> These are the passthroughs that, if entered in the rate design workpapers, along with the revised cost data filed November 15, 2001, would generate the rates as proposed.

## CERTIFICATE OF SERVICE

I hereby certify that I have this day served the foregoing document upon all participants of record in this proceeding in accordance with section 12 of the Rules of Practice.
