The After Copalletization data generally track the data for Pre-Copalletization sacks. The number of pallets after co-palletization includes both new pallets prepared as a result of copalletization and pre-copalletization pallets that were built upon, but excludes other pre-copalletization pallets.

Please note the number of new titles in October 2003 represents all participating titles at the start of this reporting period. It does not represent the number of new titles added during October 2003.
