The After Copalletization data generally track the data for Pre-Copalletization sacks. The number of pallets after co-palletization includes both new pallets prepared as a result of copalletization and pre-copalletization pallets that were built upon, but excludes other pre-copalletization pallets.

Please note the number of new titles in October 2004 is the start-over for a new reporting period. It does not represent the number of new titles added during October 2004.
