

BEFORE THE  
POSTAL RATE COMMISSION  
WASHINGTON, D.C. 20268-0001

POSTAL RATE AND FEE CHANGES, 2006

Docket No. R2006-1

NOTICE OF THE UNITED STATES POSTAL SERVICE OF FILING OF  
REVISIONS TO LIBRARY REFERENCE USPS-LR-L-67 – ERRATA  
(June 5, 2006)

The Postal Service hereby gives notice of revisions to the following library  
reference:

- 2 USPS-LR-L-67 Development of Delivery Costs by Rate Category for First-Class  
and Standard Mail (Kelley)

These revisions relate to Items 1-3 of POIR No. 3, and primarily fill in gaps in the  
documentation of the library reference. There are no changes in the results of the  
analysis. The revisions include hard copy pages explaining the revisions (attached), a  
replacement for the entire hard copy version, and a replacement CD.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorney:

---

Eric P. Koetting

## USPS-LR-L-67-Errata

Revised June 5, 2006

USPS-LR-L-67 needs to be revised for two reasons: 1) to supplement the original filing with supporting Excel workbooks and SAS programs and 2) delete the contents of a cell with an incorrect documentation reference. The revised version includes a new (expanded) CD-ROM, which entirely replaces the previous one, and a new hard copy version, which also entirely replaces the previous one.

With respect to the new CD-ROM, it now includes three new Excel workbooks named CARMM05\_KLDetail\_3RGrpAll.xls; CARMM05\_KLDetail\_3RGrpCasing.xls; and CARMM05\_KLDetail\_3RGrpCasingPure.xls. which provide supporting documentation to the worksheet in UDCInputs.xls that provide direct labor, general casing, and pure casing costs respectively.

In addition, two PC-executable of SAS programs are included in this revision. They are named 1) **AnalysisHQ103FY05.CARMM.CasingV4.sas** and 2) **macMxmail.sas**.

The PC-SAS program **AnalysisHQ103FY05.CARMM.CasingV4.sas** replaces the SAS program **AnalysisHQ103FY05.CARMM.CasingV2.sas** that was filed on page 13 of USPS-LR-L-67. The revised SAS program uses PRCSAS05.SAS7BDAT which is included in PRCSAS05.ZIP as part of USPS-LR-L-9 rather than TALLY05V2.SAS7BDAT.

The PC-SAS program **macMxmail.sas** has been included and is identical to the Word version that was filed on page 33 of USPS-LR-L-67. This program consists of SAS macros.

Lastly, also added is a comma delimited (CSV) file MxMailCodeFY05SPC.csv which is an input to the SAS program **macMxmail.sas**.

Revised June 5, 2006

## **USPS-LR-L-67-Errata**

Revised June 5, 2006

With respect to the new version of the hard copy (which on the CD-ROM is included as a Word file), compared with the original version, pages 1 and 6 through 11 have been revised to incorporate the correct references to Exel workbooks and SAS programs and datasets that will be filed with the revised USPS-LR-L-67. In addition pages 13 through 34 of the original version should be deleted. They contained a Word version of two SAS programs and that version has been replaced with the two PC-executable SAS programs that are filed with this revision. There is no corresponding hard copy.

The contents of cell D19 in workbook **UDCInputs.xls** worksheet 'Inputs' have been deleted. Please refer to the response to POIR No. 3 question 2 for a further explanation of the revision. This change does not affect any of the calculations in the model and causes no changes to the original hard copy version.

**Revised June 5, 2006**
