

**BEFORE THE
POSTAL RATE COMMISSION
WASHINGTON, D.C. 20268-0001**

POSTAL RATE AND FEE CHANGES

Docket No. R2006-1

**Major Mailers Association's
First Set Of Interrogatories and Document Production Requests To United
States Postal Service Witness Samuel T. Cutting (MMA/USPS-T26-1-1)
(June 12, 2006)**

Pursuant to Rules 25 and 26 of the Commission's Rules of Practice, Major Mailers Association submits the following interrogatories and document production requests to United States Postal Service Witness Samuel T. Cutting (MMA/USPS-T26-1-1).

Respectfully submitted,

Major Mailers Association

MMA/USPS-T26-1

Please refer to Table 1 on page 5 of your direct testimony where you provide the percentages of mail that are undeliverable-as-addressed (UAA) by subclass. It appears that within First Class, single piece (2.5%) has the lowest percentage of UAA mail, followed by Automation mail (4.1%) and then Presorted mail (6.9%). Please provide specific explanations as to why single piece mail has the lowest UAA percentage, why the UAA percentage for Automation mail, which is subject to frequent, stringent move update requirements, is so much higher than that of single piece, and why Presorted mail has the highest UAA percentage of all.
