Please consider the following two propositions, which might be asserted of some particular mailer activity:

- (1) The activity is the lowest-cost option for the mailer.
- (2) The activity is not one which could be performed by the Postal Service.

Please refer to page 8, line 1, through page 11, line 8, of your prefiled testimony. Under the view of efficient component pricing set out in those pages, would you include as “worksharing” activities, potentially subject to a worksharing discount which would comport with efficient component pricing –

- (a) An activity of which (1) is true?
- (b) An activity of which (2) is true?
- (c) An activity of which both (1) and (2) are true?

Please explain fully the reasons for your answers.
