

ORDER NO. 27

UNITED STATES OF AMERICA
POSTAL REGULATORY COMMISSION
WASHINGTON, DC 20268-0001

Before Commissioners:

Dan G. Blair, Chairman;
Dawn A. Tisdale, Vice Chairman;
Mark Acton; Ruth Y. Goldway;
and Tony Hammond

Regulations Establishing System
of Ratemaking

Docket No. RM2007-1

ERRATA TO ORDER NO. 26

(Issued August 16, 2007)

Order No. 26, proposing regulations to establish a system of ratemaking, was issued August 15, 2007. That order omitted one subsection of the proposed rules, § 3100.23(d). The omitted subsection reads as follows:

(d) The volumes for each rate cell shall be obtained from the most recent available 12 months of Postal Service billing determinants. The Postal Service shall make reasonable adjustments to the billing determinants to account for the effects of classification changes such as the introduction, deletion, or redefinition of rate cells. Whenever possible, adjustments shall be based on known mail characteristics. The Postal Service shall identify and explain all adjustments. All information and calculations relied upon to develop the adjustments shall be provided together with an explanation of why the adjustments are appropriate.

This subsection was discussed in Order No. 26 at ¶ 2706 as part of the general discussion of the calculation of percentage change in rates ¶¶ 2071 through 2078.

By the Commission.

Steven W. Williams
Secretary
