Certification of Prices for the Direct Entry Parcels Contract, including Ancillary Services, with [REDACTED]

I, W. Ashley Lyons, Manager, Regulatory Reporting and Cost Analysis, Finance Department, United States Postal Service, am familiar with the prices for the Direct Entry Parcels Contract with [REDACTED], including International Return Service Offered with Customized Agreements and Harmonization Service Offered with Customized Agreements. The prices contained in this Contract were established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Direct Entry Parcels Contracts, International Return Service Offered with Customized Agreements and Harmonization Service Offered with Customized Agreements, issued June 10, 2009 (Governors' Decision No. 09-7), which established prices by means of price floor and ceiling formulas.

I hereby certify that the numerical cost values underlying the prices in the [REDACTED] Contract are the appropriate costs to use in the formulas and represent the best available information. The prices, resulting in a cost coverage of [REDACTED] percent for the applicable prices for the mail items under the contract, [REDACTED] percent for the International Return Service, and [REDACTED] percent for the Harmonization Service, are in compliance with 39 U.S.C. § 3633 (a)(1), (2), and (3). The prices demonstrate that the Agreement and the included ancillary services should cover their attributable costs and preclude the subsidization of competitive products by market dominant products. In Fiscal Year 2008, all international competitive mail accounted for approximately [REDACTED] percent of the total contribution by all competitive products. Contribution from Direct Entry Parcels Contracts, International Return Service and Harmonization Service should be much smaller. The Agreement with [REDACTED] [REDACTED] should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.
