Hacker Valley School
11 School Loop Road
Hacker Valley, WV 26222

Please reconsider the decision to close the Hacker Valley Post Office. I am the principal of the local elementary school that utilized the local post office frequently. At this point in time, it is quite a hardship to mail packages, letters, and take care of other business such as sending certified mail with no post office nearby. There is nobody to go during the business hours to the closest post office which is over mountains and quite a distance to travel. All this travel will take time that could better be utilized with students and their education.

Kindly,

Kennetha Parker-Howes, Principal
Hacker Valley School
