

BEFORE THE
POSTAL REGULATORY COMMISSION
WASHINGTON, DC 20268-0001

STATION AND BRANCH OPTIMIZATION AND
CONSOLIDATION INITIATIVE, 2009

DOCKET NO. N2009-1

DAVID B. POPKIN MOTION

September 3, 2009

Respectfully submitted,

N20091MOTION

DAVID B. POPKIN, POST OFFICE BOX 528, ENGLEWOOD, NJ 07631-0528

On September 2, 2009, the United States Postal Service filed two Notices of filing Library References with applications for Non-Public Status.

NOTICE OF UNITED STATES POSTAL SERVICE
OF FILING OF LIBRARY REFERENCE N2009-1/11
AND APPLICATION FOR NON-PUBLIC STATUS
(September 2, 2009)

NOTICE OF THE UNITED STATES POSTAL SERVICE
OF FILING OF LIBRARY REFERENCE N2009-1/7
AND APPLICATION FOR NON-PUBLIC STATUS
(September 2, 2009)

Both of these Notices contain a seven page attachment attempting to provide justification of why providing the Finance Number for the listed facilities will cause economic harm.¹

The Postal Service also states that

It has long been the practice of the Postal Service to avoid publicly filing its finance numbers. In fact, when the Postal Service has been required to file information

¹ Attachment at 4

that would allow for the comparative analysis of facilities, the Postal Service has gone to great length and expense to replace finance numbers with dummy numbers, in order to protect the financial data of its facilities.²

Apparently the Postal Service is unaware that they routinely release Finance Numbers in their own Postal Bulletin. The Postal Bulletin is issued every other Thursday³ and is available on the Internet at <http://www.usps.com/cpim/ftp/bulletin/pb2009.htm> and is also available by subscription from the Government Printing Office.

A regular feature of the Postal Bulletin is the Post Office Changes. Column 2 of that table shows the Finance Number of the affected post office. Pages 43 through 45 of the July 30, 2009 issue of the Postal Bulletin show a sample of this data.

Another source of Finance Numbers is the annual publication of the National Five-Digit ZIP Code & Post Office Directory. Sections 7 and 8 of the 2004 version⁴ show the Finance Number as the first column in the table of New ZIP Codes and in the first and seventh columns of Discontinued Post Offices.

A third source of Finance Numbers apparently appears in an Internet site provided by the Postal Service at <http://www.usps.com/foia/readroom/leasedfacilitiesreport.htm> showing

USPS Leased Facilities Report

The information contained in the report is provided by the United States Postal Service under the Freedom of information Act and should not be redistributed or resold.

- The Postal Service maintains more than 25,300 leased spaces in its facilities inventory nation wide. Below is the current national listing of leased postal facilities which includes all fifty States and U.S. Territories.
- Individual postal facilities can be accessed by clicking on the .xls or .csv file for a state or territory. The leased information is subject to change and will be updated periodically.

² Attachment at 4

³ The Postal Bulletin has been published since March 4, 1880

⁴ The 2004 version is the last version that was issued by the US Government. A private company now publishes the data using USPS data.

Column D of this spreadsheet shows the Facility ID number which appears to have the Finance Number as the first 6 digits.⁵ These spreadsheets apparently show the Finance Numbers for over 25,000 facilities in all 50 states and US Territories.

An apparent fourth source of Finance Numbers exists on the Postal Service's website at http://www.usps.com/ncsc/addressinfo/citystate_print.htm

City State Product

City State Product is a comprehensive list of ZIP Codes with corresponding city and county names. This file also contains other names by which a Post Office may be known. City State Product can assist mailers with city, state, and 5-digit ZIP validation; ZIP Code™ and finance number assignment; and county code/name identification.

This product is available on cartridge, and CD-ROM and contains approximately 100,000 records. Updates are issued monthly or bimonthly, and technical guides are either shipped automatically with a subscription or are available upon request.

Note: City State Product does not contain detailed street data; it only contains city place names and their associated ZIP Codes. To perform complete 5-digit ZIP coding of address files, City State Product must be used in conjunction with [Five-Digit ZIP Product](#)[1], [ZIP + 4® Product](#)[2], or [Carrier Route Product](#)[3].

A sample City State file is available for download.

Evaluation of the City State Sample File shows a number of entries for Minneapolis MN and show a series of numbers in the sample entries that match the apparent Finance

⁵ I compared the data for several Colorado Springs CO facilities with the Finance Number shown in the July 30, 2009 Postal Bulletin.

Number for Minneapolis as shown in the Leased Facilities Report. Therefore, it would appear that a purchaser of this USPS product would have access to Finance Numbers.

Based on the above, it would appear that the Postal Service's request to redact the Finance Numbers from the public's version of these two library references cannot be justified. . I would hope that with all of the material being filed under seal both in this Docket and in many of the other recent Dockets, that the Postal Service's requests are being carefully evaluated.

I have attached a scanned pdf version of the three pages of the July 30, 2009 Postal Bulletin and the first page of Sections 7 and 8 of the 2004 National Five-Digit ZIP Code & Post Office Directory.
