3 To further the Postal Regulatory Commission’s understanding of how this
4 “bottom-up” process ordinarily works, the Postal Service has filed copies of
5 documents prepared and analyzed in two recently approved retail station
6 discontinuance studies. See USPS Library References N2009-1/1 and N2009-
7 1/2.¹

8 IV. Station and Branch Optimization and Consolidation Initiative

9

10 For purposes of the Station and Branch Optimization and Consolidation
11 Initiative, the Postal Service intends to employ two stages. The first prioritizes
12 station and branch consolidation candidates for analysis. The second entails the
13 conduct of facility-specific studies of each candidate station or branch to
14 generate a foundation for deciding whether a District recommends to
15 Headquarters discontinuance or consolidation of retail services at a location.

16

17

¹ These two administrative records reflect application of the longstanding process for station/branch discontinuance. Neither relates to the Initiative addressed in this docket, in which Headquarters identifies for field managers specific stations/branches to review. However, the existing process is the same one that will be used when respective offices are evaluated as a part of this Initiative. Additional discontinuance proposals and decisions outside the scope of this Initiative may also be seen while this docket is pending.
