

June 10, 2010

Ruth Goldway, Chair
Postal Regulatory Commission
901 New York Ave., NW, Suite 200
Washington D.C. 20268

Regarding: Docket A2010-4 Appeal of Crescent Lake Post Office closure.

Dear Ms. Goldway,

Once again the patrons of Crescent Lake Oregon are asking for your support and consideration in the above referenced docket. As you know we have experienced many process issues that lead us to the conclusion that the USPS has acted arbitrarily in handling the closure of the Crescent Lake Post Office.

We have received and forwarded correspondence and several local petitions to the commission which emphasize the community support in seeing our Postal Office reopened. It has never been expected that we wouldn't see changes to service or some efficiencies that the USPS would implement after an interim of temporizing services. What was expected was maintaining our own identity as a long standing community in our seasonal, rural environment. Respecting this identity has not been demonstrated by the USPS.

While we recognize time is required to resolve issues of this magnitude it appears entirely possible that our community can be assigned a zip code that would move to help correct the arbitrary position the USPS has taken.

We are asking that the PRC work with us and our representative to assign our community its own zip code while the dockets proceed for resolution. We have unanimous community support for this direction and feel it can be implemented with zero impact on the USPS. Although regional USPS management has made public comments on their position of not supporting a unique zip code it can be easily reconciled.

Our Board of Directors and operations personnel have asked that you be advised of our concern and unanimous support for these positions. We would like to thank you for your continued efforts on our behalf.

R.R. Carlson, Secretary
Central Cascades Fire & EMS
Board of Directors
