GCA/USPS-2

Please refer to your May 17, 2010, response to GCA/USPS-T2-1(b), redirected from witness Corbett.

(a) The response refers to the demand analysis materials filed on January 20, 2010, as the source of the data furnished in your response. Do these demand analyses assume, for each product, (i) a constant level of service quality in general, and (ii) specifically, a constant number of delivery days per week?

(b) If your answer to (a) is not an unqualified "yes," please explain fully how the demand analyses deal with change in the level of service quality in general and with change in the number of delivery days per week.
