Please refer to the Strategic Bilateral Agreement between the United States Postal Service and TNT Post, consisting of Koninklijke TNT Post B.V. and TNT Post Pakketservice Benelux B.V. (Request, Attachment 1, at 7), which lists the following “Streams” and “Service Descriptions”:

<b>Stream</b>	<b>Service Description</b>

In its request, the Postal Service proposes to add inbound multi-service agreements with foreign postal operators to the market dominant product list. Please explain why the IPA and SAL streams are included within the proposed inbound market dominant multi-service agreement product, given that outbound IPA and ISAL are classified as competitive products.
