

Postal Reulatory Commission

Dear Sir or Madam:

Delaware Ave just completed major renovations to make it more serviceable to our multitude of non driving neighbors. It was during this construction that data was gathered to determine the usefulness of the PO. That data is flawed and inaccurate.

Our post office is a vital part of our community. We are not a wealthy neighborhood: 25 - 50% of our neighbors don't own cars. Many don't have access to the internet. A simple 5 min. free walk to the post office will now take our elderly and visually impaired 90 min. and cost at least \$3.00 per trip. We NEED our post office to remain open.

Also- from a business standpoint, I use the PO because it's sooo convenient. If the PO becomes a UPS or FedEx, I'll use them instead and cancel my PO box.

thank you
