Regarding Appeal #A2011-1: The post office on Delaware Avenue in Albany, New York is targeted for closing. Please do not close it. The post office is the heart of our neighborhood. People of all ages and incomes mix there - and this is good for neighborhood cohesiveness. The nearest alternate post office is about 3 miles away. It's impossible for our elderly and infirm to reach it. If the rest of us must go to this other site, the fabric of our community will be torn. Huge amounts of money were just spent repaving & redesigning Delaware Ave., making the post office more accessible. It would be ironic and counter-productive to close our post office now!
