**NOTICE OF UNITED STATES POSTAL SERVICE OF FILING A FUNCTIONALLY
EQUIVALENT GLOBAL EXPEDITED PACKAGE SERVICES 3 NEGOTIATED
SERVICE AGREEMENT AND APPLICATION FOR NON-PUBLIC TREATMENT OF
MATERIALS FILED UNDER SEAL**
(December 28, 2010)

In accordance with 39 C.F.R. § 3015.5 and Order No. 86,¹ the United States Postal Service (Postal Service) hereby gives notice that the Postal Service intends to enter into an additional Global Expedited Package Services (GEPS) contract.² Prices and classifications not of general applicability for GEPS contracts were previously established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Global Expedited Package Services Contracts, issued May 6, 2008 (Governors' Decision No. 08-7).³ Subsequently, GEPS 3 was added to the competitive product list, and the contract filed in Docket No.

¹ PRC Order No. 86, Order Concerning Global Expedited Package Services Contracts, Docket No. CP2008-5, June 27, 2008.

² Although both parties have yet to sign the agreement filed in this docket, the course of negotiations and the timing of this filing in relation to other filings have led the Postal Service to submit the agreement in its present state. The agreement is expected to be executed soon. The Postal Service will supplement this filing once the agreement is executed, and will advise of any substantive changes to the text. The Postal Service believes that the rates, as set forth in this contract, would not conform to those required by Order No. 593, Order Approving Postal Service Request to Add Global Expedited Package Services – Non-Published Rates 1 to the Competitive Product List, PRC Docket Nos. MC2010-29 and CP2010-72, November 22, 2010.

³ A redacted copy of the Governors' Decision was filed on July 23, 2008, and is filed as Attachment 3 to this Notice. See United States Postal Service Notice of Filing Redacted Copy of Governors' Decision No. 08-7, Docket No. CP 2008-5, July 23, 2008. An unredacted copy of this Governors' Decision was filed earlier under seal. Notice of United States Postal Service of Governors' Decision Establishing Prices and Classifications for Global Expedited Package Services Contracts, Docket No. CP2008-4, May 20, 2008.

CP2010-71 serves as the baseline agreement for comparison of potentially functionally equivalent agreements under the GEPS 3 grouping.⁴ The Postal Regulatory Commission (Commission) determined that individual GEPS contracts may be included as part of the GEPS 3 product if they meet the requirements of 39 U.S.C. § 3633 and if they are functionally equivalent to the previously submitted GEPS contracts.⁵

The contract and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5 are being filed separately under seal with the Commission. A redacted copy of the contract, a certified statement required by 39 C.F.R. § 3015.5(c)(2) for the contract, and Governors' Decision No. 08-7 are filed as Attachments 1, 2, and 3, respectively. Attachment 4 to this Notice is the Postal Service's Application for Non-public Treatment of materials filed under seal in this docket. A full discussion of the required elements of the application appears in Attachment 4.

I. Background

The first GEPS contract was filed on May 20, 2008.⁶ Subsequently, the Commission reviewed many additional GEPS contracts with minor differences which did not affect the contracts' similarity with the cost and market characteristics of previous GEPS contracts.

The Postal Service demonstrates below that the agreement that is included with this filing is functionally equivalent to the contract that is the subject of Docket No. CP2010-71. Accordingly, this contract should be included within the GEPS 3 product.

⁶ Notice of United States Postal Service of Filing a Global Expedited Package Services Contract, Docket No. CP2008-5, May 20, 2008.

II. Identification of the Additional GEPS 3 Contract

The Postal Service believes that this additional GEPS contract fits within the Mail Classification Schedule (MCS) language included as Attachment A to Governors' Decision No. 08-7, but understands that the Commission considers this language illustrative until the MCS is completed.⁷ By its terms, the instant contract will expire five years after its effective date unless termination of the agreement occurs earlier.

III. Functional Equivalency of GEPS 3 Contracts

This GEPS 3 contract is substantially similar to the contract filed in Docket No. CP2010-71. The contract shares similar cost and market characteristics with that contract. In Governors' Decision No. 08-7, the Governors established a pricing formula and classification that ensure that each GEPS contract meets the criteria of 39 U.S.C. § 3633 and the regulations promulgated thereunder. Therefore, the costs of each contract conform to a common description. In addition, the GEPS language proposed for the MCS requires that each GEPS contract must cover its attributable costs. The contract at issue here meets the Governors' criteria and thus exhibits similar cost and market characteristics to the previous GEPS contracts.

The functional terms of the contract at issue are the same as those of the contract that is the subject of Docket No. CP2010-71, which serves as the baseline agreement for the GEPS 3 product grouping. The benefits of the contract to the Postal Service are comparable as well. Therefore, the Postal Service submits that the contract is functionally equivalent to the contract that is the subject of CP2010-71 and should be added to the competitive product list as a GEPS 3 contract.

⁷ PRC Order No. 86, at 6.

In a concrete sense as well, this GEPS contract shares the same cost and market characteristics as the previous GEPS contracts. Customers for GEPS contracts are businesses that mail products directly to foreign destinations using Express Mail International, Priority Mail International, or both. Prices offered under the contracts may differ depending on the volume or postage commitments made by the customers. Prices also may differ depending upon when the agreement is signed, due to the incorporation of updated costing information. These differences, however, do not alter the contracts' functional equivalency. Because the agreement incorporates the same cost attributes and methodology, the relevant characteristics of this GEPS contract is similar, if not the same, as the relevant characteristics of previously filed contracts.

Like the contract that is the subject of Docket No. CP2010-71, this contract also fits within the parameters outlined by the Governors' Decision establishing the rates for GEPS agreements. There are, however, differences between this contract and the contract that is the subject of Docket No. CP2010-71, which include the following.

- The name and address of the customer in the title and first paragraph of each agreement are different.
- The choice of payment method is established as postage payment through a PC Postage Provider in Article 2. As a result, all references to the option of Postage Payment through a Permit Imprint have been deleted throughout the rest of the agreement. In addition, the articles concerning General Obligations of the Mailer and Additional Obligations of the Mailer under the Postage Payment through a PC Postage Provider have been combined. Also, the article concerning Additional Obligations

of the Mailer under the Postage Payment through a Permit Imprint option has been deleted. As a consequence, all articles after Article 8 have been renumbered.

- A definition of “subsidiary and/or affiliate” is provided in Article 3, paragraph (7).
- Article 6 requires a customer using a USPS-approved PC Postage Provider as its payment intermediary to file PS Form 3152, Confirmation Services Certification or PS Form 5630, Shipment Confirmation Acceptance Notice, or a functional equivalent with its mailings. This is consistent with changes made in the GEPS contract template in the nonpublished rate docket currently before the Commission (Docket No. CP2011-45).
- The option for tendering the mail in Article 8, paragraph (6) has been revised.
- The article concerning Obligations of the Mailer, Article 8, includes additional paragraphs 11 and 12 which require the Mailer to provide information concerning the Mailer’s subsidiaries and affiliates and to submit certain reports to USPS.
- The negotiated minimum revenue commitment, as well as the penalty in the event that the Mailer does not meet its annualized minimum commitment, which are set forth in Article 9, paragraph (1), reflect the negotiations of the parties.
- The term of the agreement, as set forth in Article 10, paragraph (1).

- The identification of the customer's representative to receive notices under the agreement in Article 29 and the identity of the signatory to the agreement have been revised.

The Postal Service does not consider that the specified differences affect either the fundamental service the Postal Service is offering or the fundamental structure of the contracts. Nothing detracts from the conclusion that this agreement is "functionally equivalent in all pertinent respects"⁸ to the contract that is the subject of Docket No. CP2010-71.

Conclusion

For the reasons discussed, and as demonstrated by the financial data filed under seal, the Postal Service has established that this GEPS 3 contracts is in compliance with the requirements of 39 U.S.C. § 3633. In addition, this GEPS contract is functionally equivalent to the baseline contract that is the subject of Docket No. CP2010-71. Accordingly, this contract should be added to the GEPS 3 product grouping.

ARTICLE 18. CONFIDENTIALITY

The Mailer acknowledges that as part of securing approval of this Agreement, and in other subsequent regulatory filings, the Agreement and supporting documentation will be filed with the Postal Regulatory Commission (“Commission”) in a docketed proceeding. The Mailer authorizes the USPS to determine the scope of information that must be made publicly available in any Commission docketed proceeding. The Mailer further understands that any unredacted portion of the Agreement or supporting information will be available on the Commission’s public website, www.prc.gov. The Mailer has the right, in accordance with the Commission’s rules, to address its confidentiality concerns directly with the Commission. The procedure for making an application to the PRC for non-public treatment of materials believed to be protected from disclosure is found at Title 39, Code of Federal Regulations, Section 3007.22 found on the Commission’s website: www.prc.gov/Docs/63/63467/Order225.pdf. At the request of the Mailer, the USPS will notify the Mailer of the docket number of the Commission proceeding to establish the prices in this instrument once assigned.

ARTICLE 19. EFFECT OF PARTIAL INVALIDITY

The invalidity of any portion of this Agreement will not and shall not be deemed to affect the validity of any other provision. In the event that any provision of this Agreement is held to be invalid, the Parties agree that the remaining provisions shall be deemed to be in full force and effect.

ARTICLE 20. LIMITATION OF LIABILITY: INSURANCE

1. Except as noted in Paragraphs 2 and 3 of this Article, the liability of the USPS under this Agreement shall be limited to the refund of postage for Qualifying Mail that is lost or destroyed in bulk after being tendered to the USPS and prior to being received by the delivery authority outside of the United States. The USPS shall not be liable for any actual or consequential damages suffered by the Mailer as a result of late delivery or non-delivery of any Qualifying Mail. Qualifying Mail mailed under this Agreement is not insured against delay in delivery. Neither indemnity payments nor postage refunds will be made in the event of delay.
2. Express Mail International items that are tendered to the USPS under the terms of this Agreement include document reconstruction insurance for non-negotiable documents up to one hundred dollars (\$100.00), and merchandise insurance up to one hundred dollars (\$100.00), at no additional charge. Insurance is provided against loss, damage, or missing

contents. Optional additional merchandise insurance over one hundred dollars (\$100.00) may be purchased for an additional fee, subject to the maximum indemnity available to the country of destination. Express Mail International items that are tendered to the USPS under the terms of this Agreement are not insured against delay in delivery. Indemnity is payable in accordance with IMM 222.71 and IMM 935; and DMM 609 and DMM 503.

3. Priority Mail International items, with the exception of Priority Mail International Small Flat Rate Boxes and Priority Mail International Flat Rate Envelopes, that are tendered to the USPS under the terms of this Agreement include indemnity coverage against loss, missing contents, or damage at no additional charge. Indemnity is limited to the lesser of the actual value of the contents or the maximum indemnity based on the weight of the item. Indemnity for Priority Mail International items that are tendered to the USPS under the terms of this Agreement does not cover losses due to delays in delivery. Indemnity will be paid in accordance with IMM 230 and IMM 933.
4. For a separate fee, Priority Mail International parcels may be insured against loss, missing contents, or damage. Coverage is based on the actual value of the article at the time of mailing and is limited to the amount of insurance purchased by the fee paid. Insured mail is not available to all countries and is subject to the maximum insurance limits of the destination country. If insured mail service is purchased, it replaces the ordinary parcel indemnity specified in Paragraph 3. Insurance claims will be paid in accordance with IMM 320, IMM 932, and IMM 933.
5. The USPS bears no responsibility for the refund of postage in connection with actions taken by Customs authorities.

ARTICLE 21. INDEMNITY

The Mailer shall indemnify and save harmless the USPS and its officers, agents, and employees from any and all claims, losses, costs, damages, or expenses ("Claims") growing out of or connected in any other way with the discharge by the Mailer or its agents(s) of any undertaking contained in this Agreement, except for Claims arising out of the negligence or willful misconduct of the USPS or of its officers, agents, or employees. Notwithstanding its obligation to indemnify the USPS, the Mailer shall not be liable for any consequential damages suffered by the USPS.

ARTICLE 22. GOVERNING LAW

This Agreement shall be governed by, construed, and enforced in accordance with United States federal law.

ARTICLE 23. SUSPENSIONS OF MAIL SERVICE

In the event that a suspension of either Express Mail International or Priority Mail International service from the United States to a country would prevent delivery

of Qualifying Mail to addressees in that country, the Mailer shall not tender Express Mail International or Priority Mail International, as appropriate, to the USPS until service is restored. The annualized minimum commitment for Qualifying Mail set forth in Article 9 shall be recalculated *pro rata* to reflect the reduction in available service time.

ARTICLE 24. ASSIGNMENT

The rights of each Party under this Agreement are personal to that Party and may not be assigned or transferred to any other person, firm, corporation, or other entity without the prior, express, and written consent of the other Party.

ARTICLE 25. CONDITIONS PRECEDENT

Certification of Prices for the Global Expedited Package Services Contract with
[REDACTED]

I, Joseph Moeller, Manager, Regulatory Reporting and Cost Analysis, Finance Department, United States Postal Service, am familiar with the prices for the Global Expedited Package Services Contract with [REDACTED]. The prices contained in this Contract were established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Global Expedited Package Services Contracts, issued May 6, 2008 (Governors' Decision No. 08-7), which established prices by means of price floor and ceiling formulas.

I hereby certify that the numerical cost values underlying the prices in [REDACTED] Contract are the appropriate costs to use in the formulas and represent the best available information. The prices, resulting in a cost coverage of in excess of the minimum required by the Governors' Decision, exclusive of pickup on demand and international ancillary services fees, are in compliance with 39 U.S.C § 3633 (a)(1), (2), and (3). The prices demonstrate that the Contract should cover its attributable costs and preclude the subsidization of competitive products by market dominant products. International competitive mail accounts for a relatively small percentage of the total contribution by all competitive products. Contribution from Global Expedited Package Services Contracts should be even smaller. The Agreement with [REDACTED] should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.

Joseph Moeller

**DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON THE
ESTABLISHMENT OF PRICES AND CLASSIFICATIONS FOR GLOBAL EXPEDITED PACKAGE
SERVICES CONTRACTS (GOVERNORS' DECISION NO. 08-7)**

May 6, 2008

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices not of general applicability for certain of the Postal Service's competitive service offerings, and such changes in classification as are necessary to implement the new prices. This decision establishes prices by setting price floor and price ceiling formulas for Global Expedited Package Services Contracts. The types of contracts to which these prices will apply are described in Attachment A, the price floor and price ceiling formulas are specified in Attachment B, and management's analysis of the appropriateness of these formulas is explained in Attachment C. We have reviewed that analysis and have concluded that the prices emerging from application of the formulas and the classification changes are in accordance with 39 U.S.C. §§ 3632-3633 and 39 C.F.R. §§ 3015.5 and 3015.7. Contracts which fall within the terms specified in Attachment A, and whose prices fall within the price range established by the price floor and price ceiling formulas specified in Attachment B, are hereby authorized.

The PAEA provides that prices for competitive products must cover each product's attributable costs, not result in subsidization by market dominant products, and enable all competitive products to contribute an appropriate share to the Postal Service's institutional costs. We have determined that prices established according to the formulas listed in Attachment B would be appropriate for the services covered by the types of GEPS Contracts classified in Attachment A.¹ Management's analysis of the formulas, included as

¹ The classification for GEPS Contracts is contained in the Mail Classification Schedule language originally proposed by the Postal Service, as modified in Attachment A. See United States Postal Service Submission of Additional Mail Classification Schedule Information in Response to Order

Attachment C, supports our decision to establish prices through such formulas for the specified types of contracts.

We are satisfied that the prices established by the formulas in Attachment B meet the applicable statutory and regulatory requirements. The price floor formula provides greater than 100 percent coverage of the costs attributable to each of these types of agreements. We accept and rely upon the certification in Attachment D that the correct cost inputs for the formulas have been identified. In addition, the price floor formula

[REDACTED] should cover the agreements' attributable costs and provide a contribution toward the Postal Service's institutional costs. The formula should thus prevent a cross-subsidy from market dominant products. As noted in the certification in Attachment D, entry into agreements pursuant to this Decision should not impair the ability of competitive products as a whole to cover an appropriate share of institutional costs.

No agreement authorized pursuant to this Decision may go into effect unless it is submitted to the Postal Regulatory Commission with a notice that complies with 39 C.F.R. § 3015.5. The notice must include a financial analysis that demonstrates that the agreement covers its attributable costs, based on

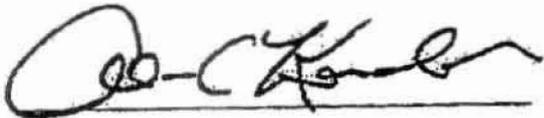

[REDACTED] Attachment B. The notice must also include a certification from a Postal Service official that the numerical values chosen for each agreement are appropriate, in that they represent the best available information and that the agreement should not result in a cross-subsidy from market dominant products and should not impair the ability of competitive products, as a whole, to cover an appropriate share of institutional costs.

ORDER

In accordance with the foregoing Decision of the Governors, the formulas set forth herein, which establish prices for the applicable GEPS Contracts, and the changes in classification necessary to implement those prices, are hereby approved and ordered into effect. An agreement is authorized under this Decision only if the prices fall within the formulas set by this Decision and the certification process specified herein is followed. After an authorized agreement is entered into, the Postal Service shall comply with all applicable statutory and regulatory requirements.

Prices and classification changes established pursuant to this Decision will take effect fifteen days after the date on which the agreement is filed with the Postal Regulatory Commission.

Certification as to the Formulas for Prices Offered Under Applicable Global Expedited Package Services Contracts

I, W. Ashley Lyons, Manager, Corporate Financial Planning, Finance Department, United States Postal Service, am familiar with the price floor formula and price ceiling formula for Global Expedited Package Services Contracts which are set forth in Attachment B.

I hereby certify that these formulas adequately represent all necessary [REDACTED] [REDACTED] If the Postal Service were to enter into agreements that set prices above the price floor, the Postal Service would be in compliance with 39 U.S.C § 3633 (a)(1), (2), and (3). The price floor formula is designed to ensure that each agreement should cover its attributable costs and preclude the subsidization of competitive products by market dominant products. In Fiscal Year 2007, all outbound international competitive mail accounted for approximately 11 percent of the total contribution by all competitive products. Contribution from Global Expedited Package Services Contracts should be much smaller. Even if all the agreements for Global Expedited Package Services Contracts are signed at the price floor, they should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3007.21, the United States Postal Service (Postal Service) hereby applies for non-public treatment of certain materials filed with the Commission in this docket. The materials pertain to an additional Global Expedited Package Services (GEPS) contract which the Postal Service believes is functionally equivalent to previously filed GEPS agreements. The contract and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5 are being filed separately under seal with the Commission, although a redacted copy of each contract, a certified statement required by 39 C.F.R. § 3015.5(c)(2) for each contract, and the related Governors' Decision are filed with the Notice as Attachments 1, 2 and 3, respectively.¹

The Postal Service hereby furnishes the justification required for this application by 39 C.F.R. § 3007.21(c) below.

(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);

Information of a commercial nature, which under good business practice would not be publicly disclosed, as well as third party business information, is not required to be disclosed to the public. 39 U.S.C. § 410(c)(2); 5 U.S.C. § 552(b)(3) and (4). The Commission may determine the appropriate level of confidentiality to be afforded to

¹ The Postal Service informed the customer prior to filing its notice that it would be seeking non-public treatment of the redacted portions of the contract. The Postal Service also informed the customer that it could file its own application for non-public treatment of these materials in accordance with 39 C.F.R. § 3007.22.

such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A).² Because the portions of materials filed non-publicly in this docket fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant its application for their non-public treatment.

(2) Identification, including name, phone number, and e-mail address for any third party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;

In the case of GEPS contracts, the Postal Service believes that the third parties with a proprietary interest in the materials are the customer with whom the contract is made.³ The Postal Service maintains that customer identifying information should be withheld from public disclosure. Therefore, rather than identifying the customer for each

² The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

³ However, other postal operators can be considered to have a proprietary interest in some rate information in the financial workpapers included with this filing. The Postal Service maintains that such information should be withheld from public disclosure. In view of the practical difficulties, the Postal Service has not undertaken to inform all affected postal operators about the nature and scope of this filing and about the ability to address any confidentiality concerns directly with the Commission as provided in 39 C.F.R. § 3007.20(b). Due to language and cultural differences as well as the sensitive nature of the Postal Service's rate relationship with the affected foreign postal operators, the Postal Service proposes that a designated Postal Service employee serve as the point of contact for any notices to the relevant postal operators. The Postal Service identifies as an appropriate contact person Guadalupe Contreras, EMS Manager, International Postal Relations. Ms. Contreras's phone number is (202) 268-4598, and her email address is guadalupe.n.contreras@usps.gov. The Postal Service acknowledges that 39 C.F.R. § 3007.21 (c)(2) appears to contemplate only situations where a third party's identification is "sensitive" as permitting the designation of a Postal Service employee who shall act as an intermediary for notice purposes. To the extent that the Postal Service's filing in the absence of actual notice might be construed as beyond the scope of the Commission's rules, the Postal Service respectfully requests a waiver that would allow it to forgo providing a notice to each postal operator, and to designate a Postal Service employee as the contact person under these circumstances, since it is impractical to communicate with dozens of operators in multiple languages about this matter.

contract, the Postal Service gives notice that it has already informed the customer for each contract, in compliance with 39 C.F.R. § 3007.20(b), of the nature and scope of this filing and its ability to address its confidentiality concerns directly with the Commission. The Postal Service employee responsible for providing notice to the third party with proprietary interest in the materials filed in these dockets is Mr. James J. Crawford, Business Development Specialist, Global Business, United States Postal Service, 475 L'Enfant Plaza, SW, Room 2P020, Washington, DC 20260-0020, whose email address is james.j.crawford@usps.gov, and whose telephone number is 202-268-7714.

(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;

In connection with its Notice filed in this docket, the Postal Service included a contract, financial workpapers, and a statement certifying that the agreement should meet the requirements of 39 U.S.C. § 3633(a)(1), (2), and (3). These materials were filed under seal, with redacted copies filed publicly, after notice to the customer. The Postal Service maintains that the redacted portions of the contract, related financial information, and identifying information concerning each GEPS customer, should remain confidential.

With regard to the GEPS agreement filed in this docket, the redactions on page 1, to the footers of each page, to Article 31, and to the signature block of the contract constitute the name or address of a postal patron whose identifying information may be withheld from mandatory public disclosure by virtue of 39 U.S.C. § 504(g)(1) and 39

U.S.C. § 410(c)(2). The redacted portions of the footers of Annex 1 also protect the customer's identifying information from disclosure.

Other redacted information in the agreement includes negotiated contract terms, such as the minimum revenue commitment agreed to by the customer, various penalties, and the percentage of cost increase which may trigger a consequential price increase.

The redactions made in Annex 1 of the contract, other than those involving the customer's name, withhold the actual prices that are being offered to the customer in exchange for its commitments and performance of its obligations under the terms of the agreements.

The redactions applied to the financial workpapers protect commercially sensitive information such as underlying costs and assumptions, pricing formulas, information relevant to the mailing profile of the customer, and cost coverage projections. To the extent practicable, the Postal Service has limited its redactions in the workpapers to the actual information it has determined to be exempt from disclosure under 5 U.S.C. § 552(b). However, in a limited number of cases, narrative passages, such as words or numbers in text, were replaced with general terms describing the redacted material. For example, where the mailer's name appears in the spreadsheet within a cell, it has been replaced by the word "Mailer." Likewise, where an actual number appears as a percentage discount as a column header, in the public filing the number is replaced by the word "Discount" and followed by the percentage symbol (e.g., Discount%).

(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;

If the portions of the contract that the Postal Service determined to be protected from disclosure due to its commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. First, revealing customer identifying information would enable competitors to focus marketing efforts on current postal customers which have been cultivated through the efforts and resources of the Postal Service. The Postal Service considers that it is highly probable that if this information were made public, its competitors would take immediate advantage of it. The GEPS agreements include a provision allowing the mailer to terminate the contract without cause by providing at least 30 days' notice. Therefore, there is a substantial likelihood of losing the customers to a competitor that targets them with lower pricing.

Other redacted information in this Agreement (which is included as Attachment 1 to this notice) includes negotiated contract terms, such as the minimum revenue commitment agreed to by the customers, various penalties and the percentage of cost increase which may trigger a consequential price increase. This information is commercially sensitive, and the Postal Service does not believe that it would be disclosed under good business practices. Competitors could use the information to assess the offers made by the Postal Service to its customers for any possible comparative vulnerabilities and focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Additionally, other potential customers could use the information to their advantage in negotiating the terms of their own agreements with the

Postal Service. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the redacted material.

The financial workpapers include specific information such as costs, assumptions used in pricing formulas, the formulas themselves, mailer profile information, projections of variables, contingency rates included to account for market fluctuations and the exchange risks. All of this information is highly confidential in the business world. If this information were made public, the Postal Service's competitors would have the advantage of being able to determine the absolute floor for Postal Service pricing. Unlike its competitors, the Postal Service is required by the mail classification schedule to demonstrate that each negotiated agreement within this group covers its attributable costs. Furthermore, the Postal Service's Governors have required that each contract be submitted to the Commission with a notice that complies with 39 C.F.R. § 3015.5.⁴ Thus, competitors would be able to take advantage of the information to offer lower pricing to the GEPS customers, while subsidizing any losses with profits from other customers. Eventually, this could freeze the Postal Service out of the expedited package services market. Given that these spreadsheets are filed in their native format, the Postal Service's assessment is that the likelihood that the information would be used in this way is great.

Potential customers could also deduce from the rates provided in each contract or from the information in the workpapers whether additional margin for net profit exists between the contract being filed and the contribution that GEPS contracts must make. From this information, each customer could attempt to negotiate ever-increasing

incentives, such that the Postal Service's ability to negotiate competitive yet financially sound rates would be compromised. Even the customer involved in this GEPS filing could use the information in the workpapers in an attempt to renegotiate its own rates by threatening to terminate its current agreement, although the Postal Service considers this risk to be lower in comparison to those previously identified.

Price information in the contract and its financial spreadsheets also consists of sensitive commercial information of the customer. Disclosure of such information could be used by competitors of the customer to assess its underlying costs, and thereby develop a benchmark for the development of a competitive alternative.

(5) At least one specific hypothetical, illustrative example of each alleged harm;

Identified harm: Revealing customer identifying information would enable competitors to target the customers for sales and marketing purposes.

Hypothetical: The identity of the customer in a GEPS contract is revealed to the public. Another expedited delivery service has an employee monitoring the filing of GEPS agreements and passing along the information to its sales function. The competitor's sales representatives can then quickly contact the Postal Service's customer and offer the customer lower rates or other incentives to terminate its contract with the USPS in favor of using the competitor's services.

Identified harm: Public disclosure of information in the financial workpapers would be used by competitors and customers to the detriment of the Postal Service.

Hypothetical: A competing expedited package delivery service obtains a copy of the unredacted version of the financial workpapers from the Postal Regulatory Commission's website. It analyzes the workpapers to determine what the Postal Service would have to charge its customers in order to meet its minimum statutory obligations for cost coverage and contribution to institutional costs. It then sets its own rates for products similar to what the Postal Service offers its GEPS customers under that threshold and markets its ability to guarantee to beat the Postal Service on price for international expedited delivery services. By sustaining this below-market strategy for a relatively short period of time, the competitor, or all of the Postal Service's competitors acting in a likewise fashion, would freeze the Postal Service out of the business-to-business and business-to-customer expedited delivery services markets for which the GEPS product is designed.

Identified harm: Public disclosure of the rate charts in Annex 1 would provide potential customers extraordinary negotiating power to extract lower rates.

Hypothetical: Customer A's negotiated rates are disclosed publicly on the Postal Regulatory Commission's website. Customer B sees the rates and determines that there may be some additional profit margin between the rates provided to Customer A and the statutory cost coverage that the Postal Service must produce in order for the agreement to be added to the competitive products list. Customer B, which was offered rates identical to those published in Customer A's agreement, then uses the publicly available rate information to insist that it must receive lower rates than those the Postal

Service has offered it, or it will not use the Postal Service for its expedited package service delivery needs.

Alternatively, Customer B attempts to extract lower rates only for those destinations for which it believes the Postal Service is the low-cost provider among all service providers. The Postal Service may agree to this demand in order to keep the customer's business overall, which it believes will still satisfy total cost coverage for the agreement. Then, the Customer uses other providers for destinations other than those for which it extracted lower rates. This impacts the Postal Service's overall projected cost coverage for the agreement, such that it no longer meets its cost coverage requirement. Although the Postal Service could terminate the contract when it first recognized that the mailer's practice and projected profile were at variance, the costs associated with establishing the contract, including filing it with the Postal Regulatory Commission, would be sunk costs that would have a negative impact on the GEPS product overall.

Identified harm: Public disclosure of information in a GEPS contract and its financial workpapers would be used by the customer's competitors to its detriment.

Hypothetical: A firm competing with the customer obtains a copy of the unredacted version of a GEPS contract and its financial workpapers from the Postal Regulatory Commission's website. The competitor analyzes the prices and the workpapers to assess the customer's underlying costs, volumes, and volume distribution for the corresponding delivery products. The competitor uses that information to (i) conduct

market intelligence on the customer's business practices, and (ii) develop lower-cost alternatives using the customer's mailing costs as a baseline.

(6) The extent of protection from public disclosure deemed to be necessary;

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant market for international expedited and parcels products (including both private sector integrators and foreign postal administrations), as well as their consultants and attorneys. Additionally, the Postal Service believes that actual or potential customers of the Postal Service for this or similar products should not be provided access to the non-public materials.

(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof;

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless the Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

(8) Any other factors or reasons relevant to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
