POSTAL REGULATORY

The Postal Service's decision to close our post office and provide rural delivery service raises questions concerning the sanctity of the mail and the risks involved in the handling of mail by non-career employees. We also foresee inconveniences in purchasing money orders and stamps, and sending accountable mail. We have the same concerns regarding the receipt of accountable mail, such as certified letters, registered letters and CODs.

The Postal Service's decision to consolidate our post office with another post office is being done over our objections. This will mean the loss of our identity as a community. We will not have a postmaster to whom we can take our problems, complaints and compliments. We will be directed to a distant postmaster in the home office of our station.

We cannot see any savings to the Postal Service under this arrangement. The clerk in charge of the station will be earning as much as our postmaster and, more than likely, will not be a resident of our community.

We feel that, as citizens of the United States, we are entitled to the same efficient postal service provided to our counterparts in urban areas. The Postal Reorganization Act is explicit in pointing this out. We petition you, as members of the Postal Regulatory Commission, to respectfully consider our protest and order the Postal Service to give additional considerations to our service needs.

Respectfully,

The proposal to close Ida Post office is a very bad thing for Ida Community. Please spare our office when this comes before you for a decision

I am an older grandmother who does not drive. If the post office is moved it will be very hard for me to get my mail on a regular basis. Right now the post office is convenient to my house and kind neighbors can retrieve my mail.
