To Whom it May Concern:

Office of PAGR

I appeal your decision made in the papers that were posted in the Masonville Post Office on July 5<sup>th</sup>. I want the post office to remain open and I want every step taken to make sure it remains open and operational. I do not want to have to track down the rural carrier to conduct my postal business. I want to be able to go to the post office window and conduct my business as I have for many years.
