I, Robert Molnar, appeal your decision to close my Post Office. One of the reasons you give for not doing home delivery by closing it is that the Postman would have to carry 2 trays.

One for Villisca and one for Grant. Excuse Me? He already carries these and even with cluster boxes he would still have 2 trays. Another reason is cost but it is only pennies per week for

curb side delivery. Also the postman has less chance of being mugged with curbside delivery instead of getting out of his car for the cluster boxes. You should have done something years ago. You knew you were going to have problems. You had to see this coming but instead of planning ahead you close post offices in areas where people most need them. We don't have city busses and waiting for the postman outside exposes us to dangerous weather conditions. We have no way to warm up in the winter and no way to cool off in the summer with the post office gone(if you use cluster boxes). We could watch out our windows with curb service and not be exposed in a way that could cause serious injury or illness. Why would our addresses have to change? He already carries 2 trays. Your answers don't make sense. You should read what you put into print before posting it. Someone did a lousy job with the Final Determination to close. Goes to show either idiots are making the decisions or someone can't read. I absolutely refuse to put "cash" in a mailbox. That's one of the stupidest things I've ever heard of. I would have no proof I put it in there. Are you going to replace it if someone steals it? Are the boxes insured against theft? Why wouldn't you answer the people's questions? Those were NOT answers. Most of it didn't make sense. Our post office is important to us. You said we didn't have a postmaster. Who's fault is that? You are in charge of hiring a postmaster. You won't tell us what it will take to keep the office open so we didn't even have a chance to do anything. That is sooo wrong. You want to close our post office because of your ineptitude. There are a lot of elderly in this town. It will be very hard on them if you close it. If this is a way to run a business I can see why people go postal. You need to figure this out without hurting people. Leave our post office be. We need it.
